

Thursday, September 4, 2025				Friday, September 5, 2025				Saturday, September 6, 2025									
Room Time	Room 1	Room 2	Room 3	Room Time	Room 1	Room 2	Room 3	Room 1	Room 2	Room 3	TBD						
07.30	POSTGRADUATE COURSE SESSION 1 Advances in Clinical Measurement and Management of GI Motility & Function			07.30													
07.45				07.45													
08.00				08.00													
08.15				08.15													
08.30				08.30													
08.45				08.45													
09.00				09.00				PLENARY 2 - Irritable bowel syndrome, somatic and mental health comorbidity: Enhanced Understanding Through DISCOVERIE (Javier Santos) - Proteases in gut physiology, pathophysiology and treatment: Can Old Dogs Learn New Tricks? (Nathalie Vergnolle)	SYMPOSIUM 13 Rome Foundation Symposium	SYMPOSIUM 14 What is new in the Treatment and Diagnosis of Upper GI Disorders?	SYMPOSIUM 15 Gut Microbiome and gut-brain disorders	Hands-On					
09.15				09.15													
09.30				09.30													
09.45				09.45													
10.00				10.00													
10.15				10.15													
10.30	COFFEE BREAK			COFFEE BREAK													
10.45																	
11.00	POSTGRADUATE COURSE SESSION 2 Advances in Clinical Measurement and Management of GI Motility & Function			11.00	SYMPOSIUM 4 Gut Microbiota for Health	SYMPOSIUM 5 Shaping our future: Learning from the best research papers published in the NGM Journal 2024/Early Career Researcher Highlights	SYMPOSIUM 6 Joint ESNM/BSPGHAN Symposium on Pediatric Motility	SYMPOSIUM 16 Chronic gastrointestinal dysfunction in systemic disorders and beyond	SYMPOSIUM 17 Joint ESNM/BDA Symposium - The Role of Diet in Neurogastroenterology and Motility	SYMPOSIUM 18 Controversies in Neurogastroenterology and Motility (TANDEM Talks)							
11.15				11.15													
11.30				11.30													
11.45				11.45													
12.00				12.00													
12.15	POSTERS/LUNCH			POSTERS/LUNCH													
12.30	POSTERS/LUNCH							12.30									
12.45								12.45									
13.00		13.00															
13.15	INDUSTRY SYMPOSIUM			13.15	INDUSTRY SYMPOSIUM	INDUSTRY SYMPOSIUM		INDUSTRY SYMPOSIUM									
13.30				13.30													
13.45	13.45			14.00	SYMPOSIUM 7 The Scientific Legacy Of Professor David Wingate – A Founding Father Of Neurogastroenterology & Motility	SYMPOSIUM 8 What is new in the Diagnosis and Treatment of Lower GI Disorders		SYMPOSIUM 9: Barrier Dysfunction in Neurogastroenterology			SYMPOSIUM 19 Joint ESNM/ISAPP Symposium – Is Gut Health a meaningful concept in neurogastroenterology?		SYMPOSIUM 20 New Technologies, Machine Learning and AI	SYMPOSIUM 21 How can we optimise care for our patients?			
14.00	14.00																
14.15	14.15																
14.30	14.30																
14.45	14.45																
15.00	LIFETIME ACHIEVEMENT AWARD			15.00	COFFEE BREAK			15.40 CLOSING CEREMONY & ABSTRACT AWARDS									
15.15	15.15																
15.30	COFFEE BREAK			15.30	COFFEE BREAK												
15.45	SYMPOSIUM 1 Nausea – Pathways for progres	SYMPOSIUM 2 Sex differences in Neurogastroenterology and Motility	SYMPOSIUM 3 Spotlight on the Enteric Nervous System and Neuroimmune Dysfunction	15.45	SYMPOSIUM 10 Control of Appetite and Metabolism	SYMPOSIUM 11 Visceral pain, the gut microbiome and endometriosis	SYMPOSIUM 12: Oesophageal motor disorders										
16.00				16.00													
16.15				16.15													
16.30				16.30													
16.45				16.45													
17.00	WELCOME RECEPTION			17.00													
17.15				17.15													
17.30				17.30													
17.45				17.45	INDUSTRY SYMPOSIUM												
18.00				18.00													
18.15				18.15													
18.30				18.30													
18.45				18.45													
19.00				19.00													
19.30				19.30													
				20.00	EVENING ACTIVITY
